

# The Emotional Intelligence Song

Lyrics

There's a new kind of intelligence needed  
So that history stops getting repeated

There's something we all need for our lives to make sense.  
It's called emotional intelligence.  
You might hear it called EI or EQ.  
What it means is emotional literacy for me and for you.

*Chorus*  
Emotional intelligence develops the mind  
And helps us makes sense of our feelings inside.  
What a wonderful world it's going to be  
with more and more emotional literacy.

Now peace has been sung about in many a song.  
Everybody wants that we all get along.  
Yet finding a road map to get us all there  
Is going to take more than I hope and I care!

*Chorus*  
Emotional intelligence develops the mind  
and helps us makes sense of our feelings inside.  
What a wonderful world it's going to be  
with more and more emotional literacy.

There's a new kind of intelligence needed  
so that history stops getting repeated.

Managing feelings is what it's about  
without stuffing them down or acting them out.

*Chorus*  
Emotional intelligence develops the mind  
and helps us makes sense of our feelings inside.  
What a wonderful world it's going to be  
with more and more emotional literacy.

Emotions can do a lot of harm  
or create more harmony.  
We can drown in our unchecked feelings  
or we can learn a better way to be.

*Chorus*  
Emotional intelligence develops the mind  
and helps us makes sense of our feelings inside.  
What a wonderful world it's going to be  
with more and more emotional literacy.

*Chorus*  
Emotional intelligence develops the mind  
and helps us makes sense of our feelings inside.  
What a wonderful world it's going to be  
with more and more emotional literacy.

*We can build world harmony.*
